CASE STUDY

SOLUTIONS

Barriers: CAME, Italy, model G4N provided by local NICE S.p.A. distributor for Serbia
www.flash-as.co.rs

Integrated Time, Attn. and Access Control system was done with ANVIZ equipment, AMJ 1001-1004 (TCP/IP) net controllers, CRF 122 RFID proxy readers and ASPEKT developed software.

Automation was done with FATEK PLCs provided by local supplier FOX electronics d.o.o.

IP CCTV System was based on SafeSky equipment.

General System Integrator ASPEKT System Integration d.o.o. Company has assembled, installed tested and started up all equipment and developed and implemented all necessary software solutions.
